

PICK-UP

Technical Data Sheet

CONTROLLED FOAM CLEANER

DESCRIPTION:

PICK-UP is a unique biodegradable mixture of soaps and surfactants blended in a manner that enables it to be used as a neutral soap or as a high speed maintainer. Foaming is held to a minimum by special surface tension reducing agents.

USES:

PICK-UP can be used as a neutral cleaner that will emulsify or dissolve normal soils from the surface of floor finishes without attacking the floor finish itself. It is equally effective on all stone and other hard surfaces. PICK-UP can be mopped on, but its low-foaming action makes it especially suited for autoscrubber applications. PICK-UP can also function as a high speed maintainer by leaving a thin film on the floor before high speed burnishing. The film formed conditions the finish and enhances the formation of the "wet look" with any type of high speed burnishing equipment.

LIQUID PROPERTIES:

CONCENTRATE pH	8.0
USE DILUTION pH	7.5
COLOR.....	Pale Green
DENSITY.....	8.6 #/GAL
FLAMMABILITY.....	Non-Flammable
SHELF LIFE.....	1 Year 22°C 30 Days 50°C
STABILITY.....	Freeze-Thaw Stable
ODOR.....	Mild Mint

DILUTIONS:

1. For HEAVY soil removal dilute 6 oz/gal
2. For NORMAL soil removal dilute 4 oz/gal
3. For HIGH SPEED MAINTENANCE dilute 2 oz/gal

DIRECTIONS:

1. When cleaning, mop diluted solution on or apply with an autoscrubber. If used at high concentration for heavy soil conditions, rinse with water.
2. When high speed maintaining, allow a thin film to dry to the touch and then burnish.

CAUTIONS:

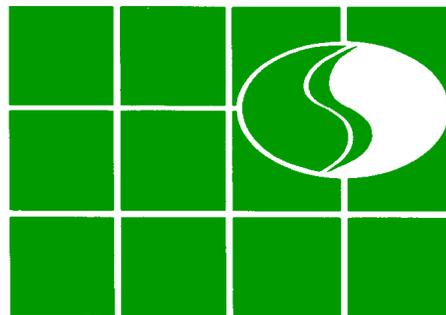

Wear rubber gloves and eye protection when using this product.

Not recommended for use on rubber, asphalt or hardwood floors.

KEEP OUT OF THE REACH OF CHILDREN

EMERGENCY ACTIONS:

If ingested, do not induce vomiting. Drink water or lemon juice and seek medical attention at once! If eye is contacted, flush with water and seek medical help if irritation persists. For external skin contact, remove contaminated clothing and wash thoroughly with water.
